

WALLOPS AIRFIELD PAVING AND RUNWAY REPAIR
INDUSTRY DAY, FEBRUARY 9, 2016
QUESTIONS FOR INDUSTRY FEEDBACK

1. After review of the Master Guide Specification for Federal Airfield Construction, please provide feedback on the major cost drivers that may be able to be removed or revised from the requirements to deliver a product that is most advantageous to the Government.
2. Please provide any technical differences that would affect cost between commercial Airport construction and the Master Guide Specification for Federal Airfield Construction.
3. Please provide input on ways to improve the solicitation process for Airfield projects at Wallops Flight Facility.
4. Please describe any other specific cost drivers in our overall acquisition approach to include the solicitation (other than the specification), for example, schedule, type of solicitation, submittals, oversight and testing methodology, etc.
5. Please provide input on any area not addressed above as it pertains to the requirement.
